

## **Scope of the Occupational Health & Safety, Environmental and Quality Management Systems**

The following standards have been used in the development of the scope for Moore's Occupational Health & Safety, Environmental and Quality management systems:

- BS EN ISO 9001: 2015 Quality Management Systems (QMS)
- BS EN ISO 14001: 2015 Environmental Management Systems (EMS), and
- BS ISO 45001: 2018 Occupational Health & Safety Management Systems (OH&S)

When determining the scope, consideration has also been given to:

- Clause 4.1 Understanding the organisation and its context (external and internal issues) and
- Clause 4.2 Determining the needs and expectations of workers and other interested parties (compliance obligations)

The scope of Moore's Furniture Group Ltd Occupational Health & Safety, Environmental and Quality management systems applies to the design, manufacture, provision, installation of kitchen, bathroom, bedroom furniture, associated products and services, including off site working.

The items are primarily constructed from melamine-faced chipboard, medium density fibreboard and other 'wood' products. The product is offered as supply only, or as supply and install throughout the UK for: contract; retail; and 'high rise' customers.

### *Quality Management Systems:*

The QMS covers the management of business activities supporting the products and services, including the installation of the product, where specified by the customer. Including, the influence (where possible) of any significant risk and opportunities associated with its context and objectives, i.e. procurement through to the end of the product warranty period.

### *Environmental Management Systems:*

The EMS covers the management of business activities supporting the products and services, including the installation of the product, where specified by the customer, and the influence (where possible) of any significant environmental aspects that occur in its life cycle, e.g. procurement, through to final disposal.

### *Occupational Health & Safety Management Systems:*

The OH&S management system covers the management of business activities supporting the products and services and includes everyone working for or on behalf of Moore's, within Moore's control or influence, that could impact on Moore's OH&S performance, e.g. procurement, through to the installation 'sign off' for the product.

## **Scope of the Occupational Health & Safety, Environmental and Quality Management Systems**

When developing the above scope, consideration has been given to Moores authority and ability to exercise control and influence on its activities, products and services.

The scope is made available to interested parties via Moores website, at <http://www.moores.co.uk/certificates>
